Navigation Software and Maps data End User License Agreement ("EULA")

This EULA is a legal agreement between you ("User") and Amtel Cellular Sdn Bhd ("Company") for the Navigation Software and maps data. The Company are only prepared to license the User to use the Navigation Software and maps data on the terms of this EULA.

TERMS & CONDITIONS

1. The maps data and/or preloaded software ("Software") in this device are licensed by third parties to the Company. The Software is sub-licensed on a limited, non-exclusive, non-transferable and revocable basis for use by the User solely on this device only and is not sold together with the device. If upgrades, updates or supplements to the Software are obtained, the use of such upgrades, updates or supplements is governed by these Terms & Conditions and any amendments that may accompany them and may be subject to additional payments and conditions. The User must not reproduce, distribute, publish, transmit, modify, adapt, translate, display, distribute, sell, license, publicly perform, prepare derivative works based upon, or otherwise use or exploit the Software. The foregoing limited right does not give the User any ownership of Software and nothing contained in this Agreement may be construed as conferring to the User any licence or right to the Software under any copyright or any other intellectual property right.

2. The Software is provided by the copyright holders "AS IS" and any express or implied warranties, including, but not limited to, the implied warranties of merchantability and fitness for a particular purpose, are disclaimed. In no event shall the copyright owner be liable for any direct, indirect, incidental, special, exemplary, or consequential damages however caused and on any theory of liability, whether in contract, strict liability, or tort (including negligence or otherwise) arising in any way out of the use of the Software, even if advised of the possibility of such damage. The entire risk to the quality and performance of the Software is borne by the User. This disclaimer of warranty constitutes an essential part of the licence granted to the User to use the Software.

3. The trademarks, logos, and service marks ("Trademark") displayed on this Software and device, are owned by the Company and third parties. All Trademark not owned by the Company are the property of their respective owners, and are used with permission. Nothing contained herein may be construed as granting any right or license to use any Trademark.

4. The maps and any information stored in this device is strictly a navigation guide for reference use only. It is the sole responsibility of the User's to use this device prudently. Information provided may change over time and the User should decide the route based on the actual road conditions and traffic laws. The Company makes no representation or warranty, whether expressly or impliedly as to the accuracy, completeness, timeliness, reliability or fitness for any particular purpose of the maps stored therein.

5. The planned, shortest, quickest routes and estimated time to desired destinations are obtained from optimal route calculations based on the map database and should be used as a reference only. This device must not be used for any purpose requiring precise measurement of direction, distance, location or topography.

6. User shall be responsible for his/her use of the maps stored therein and the device, and shall at all times comply with all traffic laws and regulations of the country of usage.

7. The usage of this device is dependent on the Global Positioning System ("GPS") which is operated by the United States government and is solely responsible for its accuracy and maintenance. The system is subject to changes which may affect the performance and accuracy of the GPS navigator devices.

8. The use of the device is at the User's own risk. Lokatoo and the Company is not liable for any fines, penalties, damages or loss whether direct, indirect, incidental, special, exemplary, or consequential damages however caused and on any theory of liability, whether in contract, strict liability, or tort (including negligence or otherwise) arising in any way out of the use of the device.

9. In the event of any inconsistencies or conflicts between the English and Bahasa Malaysia version of the Terms & Conditions herein, the English version shall prevail.

Version 1.0

CONTENTS

Safety Advice

- Do not adjust or perform any setting to the unit while driving. Always do the necessary adjustment and setting prior to starting your journey.

- Always obey traffic rules. If the navigation software instructions contradict with traffic rules, the traffic rules shall prevail.

Updating your map

- Always update your map in order to get the best from your navigation software.

- With updated map, you will be able to find latest P.O.Is and roads. Updated map will also enable better route to be generated.

- You can download the latest map from www.lokatoo.com. Maps are updated regularly.

Acquiring GPS satellite signal

Always acquire GPS satellite signals before using the navigator for navigation. To acquire satellite signals and to lock on your current position, please ensure that your car is not under a roof, tree or any object that might block the navigator from acquiring satellite signal.

Once navigation software is launched, the system will automatically search for satellite signals. To lock on to your current position, the navigator must lock on to at least 3 satellites. To acquire your altitude information, fourth satellite is needed.

No Satellite signal acquired.

Satellite signals acquired.

7

Home & Office

You may retrieve your home and office location from your navigator. Tapping any of these buttons will enable the navigator to generate route to your home or office automatically.

In order to retrieve home or office, its location must be set to the navigator's memory.

*Turn to page 28 to learn on how to save destination as home and office.

1.   Tap **Home** or **Office**.

2.   Select between **Fastest**, **Economic**, **Least Turn** and **Shortest** distance.

Then tap **Go** to begin navigation.

*To learn more about route method, turn to page 43.

Direct Search

Searching road or P.O.I (Point Of Interest).

1.   Tap **Search Destination**.

2.   Tap **Direct Search**.

8

3. Tap the country column to select the destination country.

4. Enter the name of the desired destination. Tap **OK** when done.

SPACE	Spacebar
	Backspace
CLEAR	Tap to empty search bar.
@$?	Tap to display numeric and special characters keyboard.
OK	Tap to confirm keyword entered.

TIPS

Enter the unique part of the road name or P.O.I for a fast and accurate search result.

For example:
JALAN PJS 7/19 to be entered as **PJS 7/19** (for road name, do not enter JALAN, LORONG, PERSIARAN, etc) and **JALAN SETIABAKTI 9** to be entered as **SETIABAKTI 9**. If you are searching for **IKANO POWER CENTRE**, just enter **IKANO**. You can search **LOT 10 SHOPPING CENTRE** by just entering **LOT 10**.

WHAT IS P.O.I?

P.O.I stands for Point Of Interest. Examples of P.O.Is are restaurants, shopping centres, petrol stations, banks and etc.

5. Screen will display results containing keywords entered for the entire selected country.

   Tap **Sort by Dist** to sort the results by distance. Tap **Sort by Name** to sort the results in alphabetical order.

   Use the up and down arrow buttons to scroll between pages.

6. Tap the desired destination from search result.

    Then tap **Route** to go to route selection page.

    Alternatively, you may tap **View Map** to view the map of the selected destination or to save the destination as favourite.

    Tap **Sort by Dist** to sort the results by distance. Tap **Sort by Name** to sort the results in alphabetical order.

    To learn on how to save a favourite, turn to page 28.

7. Select between **Fastest**, **Economic, Least Turn** and **Shortest** distance.

    Then tap **Go** to begin navigation.

    To learn more about route method, turn to page 43.

Address

Searching road within a city, state or country.

1. Tap **Search Destination.**

2. Tap **Address**.

10

3. Tap the country column to select the destination country.

4. Tap **All States** to enter the destination state.

TIPS

You may select not to select State or City or both.

- If both **State** and **City** are entered, the search result will display all relevant roads (that match the keywords entered) within the selected city.

- If **State** is entered and **City** is not entered, the search result will display all relevant roads (that match the keywords entered) within the selected state.

- If **State** is not entered and **City** is entered, the search result will display all relevant roads (that match the keywords entered) within the selected city.

- If both **State** and **City** are not entered, the search result will display all relevant roads (that match the keywords entered) within the country.

5. Tap **All Cities** to enter the destination city.

6. Tap **Road** to enter the destination road.

7. Enter the name of the destination road. Tap **OK** when done.

Backspace	Backspace
SPACE	Spacebar
CLEAR	Tap to empty search bar
@$?	Tap to display numeric and special characters keyboard.
OK	Tap to confirm keyword entered.

8. Screen will display results containing keywords entered.

   Use the up and down arrow buttons to scroll between pages.

   Tap the desired destination from search result.

TIPS

Enter the unique part of the road name for a fast and accurate search result.

For example:
JALAN PJS 7/19 to be entered as **PJS 7/19** (for road name, do not enter JALAN, LORONG, PERSIARAN, etc) and **JALAN SETIABAKTI 9** to be entered as **SETIABAKTI 9**.

9. Tap **Route** to go to route selection page.

   Alternatively, you may tap **View Map** to view the map of the selected destination or to save the destination as favourite.

   To learn on how to save a favourite, turn to page 28.

TIPS

Tap to clear respective field.

Point of Interest

Searching Point of Interest

10. Select between **Fastest**, **Economic**, **Least Turn** and **Shortest** distance.

    Then tap **Go** to begin navigation.

    To learn more about route method, turn to page 43.

1. Tap **Search Destination**.

2. Tap **Point of Interest**

3. Select and tap the desired Point of Interest category displayed on the screen.

    Use the left and right arrow buttons to scroll between pages.

4. Select& tap the Point of Interest sub-category from the list displayed on the screen.

   Use the up and down arrow buttons to scroll between pages.

5. Tap the desired destination from search result.

   Then tap **Route** to go to route selection page.

   Alternatively, you may tap **View Map** to view the map of the selected destination or to save the destination as favourite.

   Tap **Sort by Dist** to sort the results by distance. Tap **Sort by Name** to sort the results in alphabetical order.

   To learn on how to save a favourite, turn to page 28.

6. Select between **Fastest**, **Economic**, **Least Turn** and **Shortest** distance.

   Then tap **Go** to begin navigation.

Telephone Number

You may search a destination via telephone number. Please note that this function is only applicable to TM fixed-line telephone number of selected commercial premises. More telephone numbers are added gradually in the future.

1.   Tap **Search Destination**

2.   Tap **Telephone Number**.

3.   Enter the destination fixed-line telephone number using the keypad. Then tap **OK** proceed.

	Spacebar
	Backspace
CLEAR	Tap to empty search bar.
OK	Tap to confirm telephone number entered.

4.   Screen will display results containing telephone number entered.

Use the up and down arrow buttons to scroll between pages.

5.   Tap the desired destination from search result.

Then tap **Route** to go to route selection page.

15

Alternatively, you may tap **View Map** to view the map of the selected destination or to save the destination as favourite.

Tap **Sort by Dist** to sort the results by distance. Tap **Sort by Name** to sort the results in alphabetical order.

6. Select between **Fastest**, **Economic**, **Least Turn** and **Shortest** distance.

Then tap **Go** to begin navigation.

Favourites (Search Destination)

Retrieving a destination saved in Favourites.

1. Tap **Search Destination**.

2. Tap **Favourites**.

3. Screen will display a list of destination record saved in Favourites.

Use the up and down arrow buttons to scroll between pages.

Favourites (Modify record)

You may modify the information of the destination saved in favourites.

4. Tap the desired destination from search result.

   Then tap **Route** to go to route selection page.

   Alternatively, you may tap **View Map** to view the map of the selected destination.

   Tap **Delete** to delete the selected record or **Delete All** to delete all records. Tap **Save** to save the record as Favorites.

   To learn on how to save a favourite, turn to page 28.

5. Select between **Fastest**, **Economic**, **Least Turn** and **Shortest** distance.

   Then tap **Go** to begin navigation.

   To learn more about route method, turn to page 43.

1.
   Tap ![icon] of the selected favourite record you would like to modify.

Tap the item you would like to modify. Tap **OK** when done then.

Tap **Save** to save the favourite.

You may also tap **Home** to save the record as Home or **Office** to save it as Office.

TIPS

Tap [Tap to insert picture.] to insert picture for the respective favourite.

Example

To change the telephone number, tap the telephone number field.

Modify the telephone number. Tap **OK** when done.

18

Yellow Pages

The Yellow Pages listings will allow you to search for companies or businesses details by keying in the company name or telephone numbers appearing in over 3500 categories.

Company Name

Search a company by name. You may obtain the company's address, telephone number, fax number & website information here. The system may also navigate you to the location of the company.

1. Tap **Search Destination**.

2. Tap **Yellow Pages**.

3. Tap **Company Name**.

4. Enter the name of the desired destination. Tap **OK** when done.

19

5. Tap the desired destination from search result.

   Then tap **Route** to go to route selection page.

   Alternatively, you may tap **View Map** to view the map of the selected destination or to save the destination as favourite.

   Tap **Sort by Dist** to sort the results by distance. Tap **Sort by Name** to sort the results in alphabetical order.

   To learn on how to save a favourite, turn to page 28.

6. Select between **Fastest**, **Economic**, **Least Turn** and **Shortest** distance.

   Then tap **Go** to begin navigation.

   To learn more about route method, turn to page 43.

Yellow Pages (Telephone Number)

You may also search a company by telephone number.

1. Tap **Search Destination**.

2. Tap **Yellow Pages**.

3. Tap **Telephone Number**

4. Enter the destination fixed-line telephone number using the keypad. Then tap **OK**.

5. Tap the desired destination from search result.

Then tap **Route** to go to route selection page.

Alternatively, you may tap **View Map** to view the map of the selected destination or to save the destination as favourite.

Tap **Sort by Dist** to sort the results by distance. Tap **Sort by Name** to sort the results in alphabetical order.

To learn on how to save a favourite, turn to page 28.

6. Select between **Fastest**, **Economic**, **Least Turn** and **Shortest** distance.

Then tap **Go** to begin navigation.

To learn more about route method, turn to page 43.

Yellow Pages (Category)

Search for companies and businesses by categories just like how you search in Yellow Pages hard copy directory. There are more than 3500 different categories to select from.

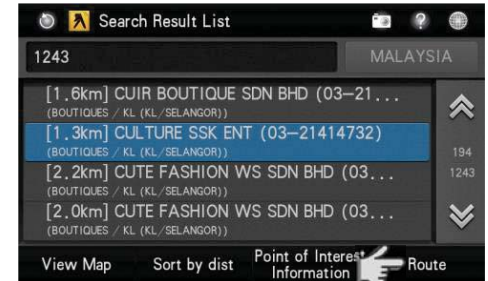

1. Tap **Search Destination**.

2. Tap **Yellow Pages**.

3. Tap **Category**.

4. Enter the name of the desired category. Tap **OK** when done.

5. Tap the desired destination from search result.

   Then tap **Route** to go to route selection page.

   Alternatively, you may tap **View Map** to view the map of the selected destination or to save the destination as favourite.

   Tap **Sort by Dist** to sort the results by distance. Tap **Sort by Name** to sort the results in alphabetical order.

Yellow Pages (About)

6. Select between **Fastest**, **Economic**, **Least Turn** and **Shortest** distance.

   Then tap **Go** to begin navigation.

   To learn more about route method, turn to page 43.

1. Tap **Search Destination**.

2. Tap **Yellow Pages**.

3. Tap **About**.

4. Yellow Pages information will be displayed.

Topic Map

Topic Map allows event organisers to promote their events and its participating venues. User will be able to search for venue of a particular event here.

1.   Tap **Search Destination**.

2.   Tap **Topic Map**

3.   Screen will display a list of events.

Use the up and down arrow buttons to scroll between pages.

4.   Tap preferred event to view the participating venues.

5.   Tap the desired destination from search result.

Then tap **Route** to go to route selection page.

Alternatively, you may tap **View Map** to view the map of the selected destination or to save the destination as favourite.

Tap **Sort by Dist** to sort the results by distance. Tap **Sort by Name** to sort the results in alphabetical order.

Tap **Point of Interest Information** for more information about the selected venue such as address, telephone number, website and write-up about the venue. You may also view pictures of the venue here.

To learn on how to save a favourite, turn to page 28.

6. Select between **Fastest**, **Economic**, **Least Turn** and **Shortest** distance.

   Then tap **Go** to begin navigation.

   To learn more about route method, turn to page 43.

Coordinates

Searching a destination by coordinates (Longitude / Latitude).

1. Tap **Search Destination**.

2. Tap **Coordinates**.

3. Enter the destination coordinate using the keypad.

←	Backspace
CLEAR	Tap to empty search bar.
Degrees, Minutes& Seconds	Tap to toggle coordinates format between WGS84 (Degree), WGS84 (D-M-S) and GPS format.

25

4. Tap **Route** to go to route selection page.

   Alternatively, you may tap **View Map** to view the map of the selected destination or to save the destination as favourite.

   To learn on how to save a favourite, turn to page 28.

5. Select between **Fastest**, **Economic**, **Least Turn** and **Shortest** distance.
   Then tap **Go** to begin navigation.

   To learn more about route method, turn to page 43.

History (SEARCH)

Retrieving a destination saved in History.

1. Tap **History**.

2. Screen will display results on destination searched recently.

   Use the up and down arrow buttons to scroll between pages.

26

3. Tap the desired destination from the list displayed.

    Then tap **Route** to go to route selection page.

    Alternatively, you may tap **View Map** to view the map of the selected destination or to save the destination as favourite.

    To learn on how to save a favourite, turn to page 28.

4. Select between **Fastest**, **Economic**, **Least Turn** and **Shortest** distance.

    Then tap **Go** to begin navigation.

    To learn more about route method, turn to page 43.

Saving Favourites (including Home and Office)

You can save a location searched as favourite for future retrieval. You may also save the location as Home and Office.

A. Search desire destination using **Search Destination**, **Address** or **Point of Interest**.

B. Upon selecting the destination from the result list, tap **View Map**.

C. The selected location will be displayed in a map.
    Tap .

D. Tap **Save As** to save the selected location as favourite.

E. Tap the item you would like to modify.

    Tap **Save** to save the favourite.

    You may also tap **Home** to save the destination as Home or **Office** to save it as Office.

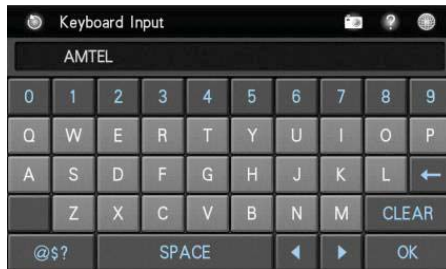

F. The favourite icon will be displayed in a map.

28

Example

To change the name, tap the name field.

Modify the name. Tap **OK** when done.

Setting Waypoint

Waypoint allows you to set multiple temporary stops before proceeding to your destination.

A.   Search desire destination using **Basic Search**, **Address** or **Point of Interest**.

B.   Upon selecting the destination from the result list, tap **View Map**.

C.   Tap **Waypoint** to set the selected location as waypoint.

D.   Waypoint is set and marked with a flag. The number on the flag represents the number of the waypoint set. You may set up to 10 waypoints for a single journey. After setting all waypoints, set the final destination and begin driving.

29

Where am I?

"Where am I?" allows you to identify your current location by giving you information such as nearest road name and coordinates. Here, you may also search for nearby important Point of Interest.

A. Ensure that your navigator has acquired GPS satellite signals.
    Tap **View Map**.
B. Tap
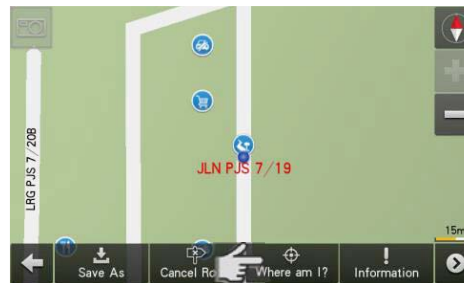

C. Tap **Where am I?**

D. Screen will display the nearest road name and its coordinates.

    Tap **Search** to search for important nearby Point of Interest.

E. Select the preferred category

F. Tap the desired destination from search result.
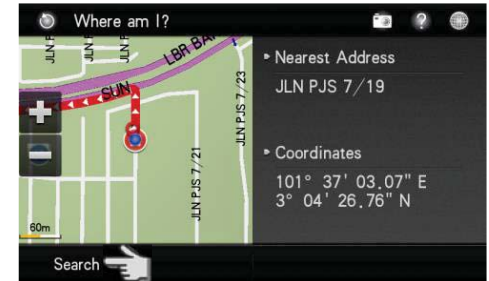

Then tap **Route** to go to route selection page.

Alternatively, you may tap **View Map** to view the map of the selected destination or to save the destination as favourite.

To learn on how to save a favourite, turn to page 28.

G. Select between **Fastest**, **Economic**, **Least Turn** and **Shortest** distance.

Then tap **Go** to begin navigation.

To learn more about route method, turn to page 43.

Eco & Trip

This page displays driving distance, driving time, average speed and maximum speed. Based on the information entered in Setting page, it able to calculates the fuel price*, fuel consumption*, fuel efficiency* and the CO_2 emission*.

1.   Tap **Tools**.

2.   Tap **Eco & Trip**.

3.   Screen will display the Eco & Trip interface. Tap **Setting** to enter vehicle information.

4.   Enter the profile of your car to the setting page.

      Engine Displacement: Select the engine displacement category of your car.

Fuel Type: Select the fuel type used between petrol, diesel or NGV.

Fuel Efficiency: Enter the manufacturer's specification fuel efficiency.

Fuel Price: Enter the fuel price.

Tap **OK** to confirm.

5.   Eco & Trip will record distance driven, total driving time, average and maximum speed. Based on the information entered, it estimates the fuel consumption*, fuel efficiency* and CO_2 emission*.

* Based on estimation.

37

Export

You may export favourites as a backup data or to be shared among your peers.

1. Tap **Tools**.

2. Tap **Export**.

3. Tap **Export**.

   Exported file is located at *\SDMMC\okatoo_data\USERDATA*. The file bears the file extension .gpx.

   For example: *20130829121747_f.gpx*

Import

Use this function to restore the backup copy of favourites or to import favourites shared by your peers. Before performing this function, please copy the exported favourites file to*\SDMMC\okatoo_data\USERDATA.*

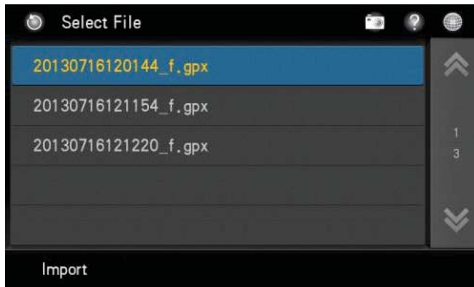

1. Tap **Tools**.

2. Tap **Import.**

38

3. Tap **Select File**.

4. Select the file to be imported. Then tap **Import**.

Manage Keyword

This page displays all keywords entered during destination search. You may delete any unwanted records here.

1. Tap **Tools**.

2. Tap **Manage Keyword**.

3. Screen will display results on the keywords entered during destination search.

   Use the up and down arrow buttons to scroll between pages.

   To search a destination using the keyword in the list, tap to highlight the keyword then tap **Search**.

   Tap to highlight the record you want to delete then tap **Delete**.

   You may tap **Delete All** to delete all records.

GPS Information

This page displays all GPS signals related information such as latitude, longitude, altitude and number of satellites acquired.

1. Tap **Tools**.

2. Tap **GPS Information**.

3. Screen will display the position of GPS satellites, latitude, longitude, altitude, satellite count and HDOP bars.

Red dot
Low precision GPS signals acquired.

Yellow dot
Medium precision GPS signals acquired.

Blue dot
High precision GPS signals acquired.

Enable GPS
Select **Yes** to enable the system to receive satellite signal. Select **No** to disable.

HDOP
Horizontal Dilution of Precision. High number of HDOP bars indicates high level of precision.

Latitude
Latitude value of current coordinate displayed in WGS84 format.

Longitude
Longitude value of current coordinate displayed in WGS84 format.

Altitude
Altitude value of current position.

Satellite Count
Number of satellites acquired.
